HARBOR ISLAND SUPERFUND SITE

Dear Ms. Cohen:

EPA's letter of July 31, 1986, requesting information and records relating to the subject Superfund site, was directed to Mobil's Property Tax Department in Dallas, Texas. That Department has referred your letter to this office. Our response will not be able to be made within the 30 day schedule you require in your notice. We therefore request that Mobil be given an extension of time until October 4, 1986, to respond.

If this is agreeable, we would appreciate your indicating that by your signature on the copy of this letter, which should then be returned to me.

Very truly yours,

Stanley Roller
